# CHAMELEON H

A multi-modal biometric tablet.

# CHAMELEON H

A multi-modal biometric registration and verification tablet.

Multi-Modal Biometrics

Portable and Lightweight

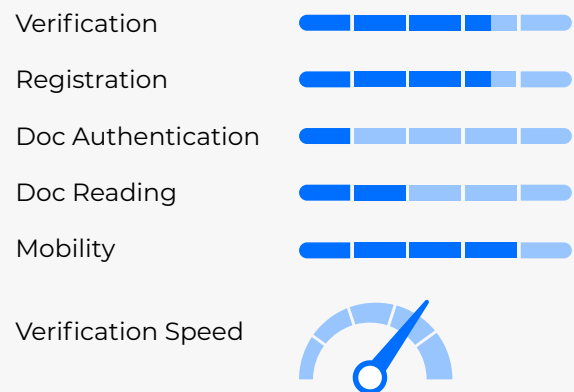

Adaptable Tablet and Desktop

## ID verification in 1 minute

Verify anyone instantly.

## Multi-modal biometric Registration and verification

Chameleon H has all the features to register and verify citizens: a fingerprint scanner, face capture camera and a contactless card reader.

# Adaptable and lightweight

Chameleon H is designed for mobility and multi-purpose usage. It is lightweight and compact, to easily take to wherever identity registration or verification is needed. Chameleon H is a tablet, but the robust stand transforms it into a desktop workstation in an instant. The interchangeable battery provides up to 8 hours of operating time.

DESKTOP MODE

TABLET MODE

## Designed for on-the-go

Chameleon H is lightweight and easy to operate. It's designed for on-the-go and can operate without an internet connection. Need more than eight hours of operating time? Quickly swap the battery or charge it with the solar panel.

## Accessories

### IP67 Protective case

Waterproof, dustproof, and lockable carry case with flush lifting handle. Rugged, drop resistant, and stackable.

### Custom hardshell case

Hardshell carry case for device and power adaptor. Soft internal padding and zipper. Durable, portable, dustproof and water resistant.

### Spare Battery

Rechargeable lithium-ion polymer battery. 8+ hours regular use operating time.

### Wrist Strap

Adjustable anti-drop lanyard
